HONOR TO OUR WORKMEN.

Whom shall we call our heroes,
To whom our praises sing?
The pampered child of fortune,
The titled lord or king?
They live by others' labor—
Take all and nothing give;
The noblest types of manhood
Are they who work to live.
Then honor to our workmen,
Our hardy sons of toil—
The heroes of the workshop,
And monarchs of the soil.

Who spans the earth with iron,
And rears the palace dome?
Who creates for the rich man
The comforts of his home?
It is the patient toiler—
All honor to him, then!
The true wealth of the nation
Is in her working men.

For many barren ages
Earth hid her treasures deep,
And all her giant forces
Seemed bound as in a sleep:
Then Labor's "anvil chorus"
Broke on the startled air,
And lo! the earth in rapture
Laid all her riches bare.

'Tis toil that over nature
Gives man his proud control,
And purifies and hallows
The temples of his soul.
It scatters foul diseases,
With all the ghastly train;
Puts iron in the muscle,
And crystal in the brain!

The Grand Almighty Builder,
Who fashioned out the earth,
Hath stamped his seal of honor
On Labor from her birth.
In every angel flower
That blossoms from the sod,
Behold the Master touches,
The handiwork of God!

A BEAUTIFUL EXTRACT.

We clip the following from a sermon preached by the Rev. Chas. A. Humphreys:

"Show me the vilest pander, the meanest assassin that walks the earth, and I will find in his soul some germs of good, which, if nourished, will grow into trees that would gladden the gardens of God—some aspirations whose blind gropings and vain strugglings would make an angel weep. This human soul is a breath of God's spirit, and though at times it is almost smothered under our ruined and wasted lives, it only needs to have its earthly incrustation broken to soar upward to its native air. Religion is love to God and man. It is a growth, not a spasm; a life, not a transparent experience; not sad and depressing, but bright and inspiring. *It does not come like the* lightning, flashing in a moment from the east through all the spreading heavens, but like the rising sun, piercing first the gathering mists with an effectual ray, then struggling slowly into twilight, and at last climbing into perfect day."

KINDNESS IN WOMAN UNIVERSAL.

"I have observed among all nations," says John Ledyary, the great traveler, "that the women ornament themselves more than men; and wherever found, they are the same kind, civil, obliging, humane, tender beings; they are ever inclined to be gay and cheerful, timorous and modest. They do not hesitate like man to perform a hospitable and generous action; are not haughty, nor arrogant, nor supercilious; but full of courtesy and fond of society; industrious, enonomical and ingenious; more liable to err, in general, also more virtuous, and performing more good actions than he.

"I never addressed myself in the language of decency and friendship to a woman, whether civilized or savage, without receiving a civil and friendly answer. With man it was often otherwise. In wandering over the barren plains of inhospitable Denmark, through honest Sweden, frozen Lapland, rude and churlish Finland, unprincipled Russia, and the wide-spread regions of the wandering Tartar; if hungry, dry, cold, sick or wet, woman has ever been friendly to me and uniformly so; and to add to this virtue, so worthy of the appellation of benevolence, these actions have been performed in so free and so kind a manner, that if I was dry I drank the sweet draught, and if hungry ate the coarse morsel, with a double relish."

PLUMP WOMEN.—The New York *Gazette* concludes a plea for "plump women" as follows: But whatever education our girls have, let us have less of it. American girls are notorious for their pallor and frailty and tendency to wither and lose their charms at an early age. This country has no greater want at the present time than of plump girls and plump women. Let us have them plump and healthy, whether they know anything or not. We can teach their children what they don't know if necessary; by all means let us have rosy, blossoming, solid woman. The Pacific railroad is not half so important to the prosperity of this country as the aggregate avoirdupois of its women. The female sex of America ought to weigh at least half as much again as it does.

FANNY FERN thinks it ought to be considered a disgrace to be sick, confidentially adding—"I am fifty-five, and I feel half the time as if I was just made. To be sure I was born in Maine, where the timber and the human race last; but I don't eat pastry, nor candy, nor ice cream. I own stout boots—pretty ones, too. I have a water-proof cloak, and no diamonds. I like a nice bit of beef steak and a glass of ale, and anybody else who wants it may eat pap. I go to bed at ten and get up at six; I dash out in the rain because it feels good on my face. I don't care for my clothes, but I will be well; and after I am buried, I warn you, don't let any fresh air or sunlight down on my coffin, if you don't want me to get up."

CALIFORNIA, says an Eastern paper, gives birth to a good many facts. A friend informs us, for instance, that it is impossible to grow the common turnip in any part of the country—the soil being so impregnated with gold-dust that the "yaller strikes through," and converts them all into rutabagas.

AN old Dutchman undertook to wallop his son; Jake turned the tables and walloped him. The old man consoled himself for his defeat by rejoicing at his son's superior manhood. He said: "Vell, Shake is a tam schmart fellow. He can whip his own taddy."

COULD anything be neater than the negro's reply to a young lady whom he offered to lift over a gutter, and who insisted that she was too heavy? "Lor, missus," said he, "I'se used to lifting barrels of sugar."

A BIT of glue dissolved in skim milk and water will restore old crape.

HOW BILL GOT SHOT.

"Bill, don't you know dad don't allow you to buy shot?" asked a young urchin of a brother somewhat his senior who was making a purchase of that article.

"You just never mind me. I'll thank you to attend to your business, Mister Bob; don't care what dad allows: I'll buy what I please."

Little boy slightly agitated. "I'm going to tell dad," he said, and rushed into the room where the old man was quietly reading the morning paper.

"Dad, dad, Bill's went and got shot."

"Good Heaven!" cried the old man, dropping the paper in consternation, and bolting for the door, "Where is he?"

"Down to Thompson's store," responded Bob.

In his excitement the old man forgot to remove his reading specs, and

FRIDAY AFTERNOON, OCT. 13, 1867.

THE STATE.

The official majorities of the several counties of the State are published in another column. Sharswood is elected by 744, after overcoming Geary's majority of 17,178. This result, great in securing such a man as George Sharswood upon the Supreme Bench, and greater still in its deep significance for the future, brings Pennsylvania once more into the Democratic column. Wrested from the hands of the corrupt and infamous cabal of Congressional traitors, who laid their sacrilegious hands upon the Constitution of their country and attempted to tear from it every line and syllable which bars their way to power, the "Old Keystone" now nobly takes her stand on the side of the people and the people's rights, and boldly proclaims her fealty to the "common bond and common brotherhood." In a short time New York and New Jersey will add their voices in behalf of "the good old cause," and increase the general joy by showing their devotion to the Democratic faith.

REJOICINGS OVER THE VICTORY.

The Democracy of the borough had a happy time of it on the night of the election, in their rejoicings over the glorious triumph in the county. Cheer followed cheer as the returns came in, and after old Mountpleasant, Union and Germany thundered along their big majorities, the drum and fife were brought out, which "waked up the echoes" until morning.

On Thursday evening, martial music was again brought into requisition, and, accompanied with gongs, bells, horns, &c., (not forgetting a thousand or two of cheers,) a very lively "street concert" resulted.

On Saturday evening, "Penelope Ann," the beautiful brass eight-pounder belonging to the Democracy, "appeared upon the scene," and, occupying an elevated position near town, sent forth her gladdest and loudest notes, over the redemption of "the Keystone of the Federal Arch." She seemed to feel the extraordinary importance of the occasion, because never before did she make so magnificent a noise. A procession of jubilent Democrats, with drums and fife, and a great variety of other "musical instruments," also paraded the streets, closing the demonstration with cheers for the county, the State, Ohio, and so on. It was a spirited affair—pleasant to the Democrats, but *otherwise* to the (blue—*very* blue) Radicals.

THE DUTY OF DEMOCRATS.

The wonderful Democratic gains throughout the country prove that we can elect the next President and save the country. The people are with us, and they have resolved that the Union must be restored and the Constitution preserved. They will have no negro empire erected on the ruins of the Republic.

Let every Democrat go to work from this hour with renewed diligence and energy. Let a united and universal effort be made to put a sound and able Democratic paper in every house. The press is the lever that moves the modern world, and through the agency of the Democratic press a great revolution is being wrought. Then let every Democrat, as he counts our gains and rejoices over our great victories, resolve to engage in the great work of circulating widely Democratic newspapers. By so doing he will render it certain that a new and constantly increasing impetus shall be given to the glorious tide of victory.

BETTER YET.—The majority for Martin Getz, the Democratic candidate for Director of the Poor, was given in our last at 410. This was a mistake. It should have been 430—making the Democratic majorities range from 313 to 430. Certainly very handsome figures.

The people of Adams do *not* believe with the Radical leaders here, that the equality of the negro with the white is necessary to the settlement of national questions.

HON. WM. A. WALLACE.—The New York *Tribune* pays Senator Wallace a well deserved compliment by saying, editorially, that the victory in this State is greatly due to his energy and ability. He made no noisy show in the campaign, but his influence was everywhere potently felt in completing the organization of the party. He has made a most efficient Chairman of the Democratic State Central Committee, and we all feel that the great campaign of next year will be ably and successfully conducted by him.

RADICAL editors boast of "victories in the *South*"—where *negroes* do the voting! Nothing else seems to be left them. The *white* North repudiates the *black*, unclean party.

FOR several years we have been engaged in the delightful business of explaining defeats. Our Radical friends told us that this was our privilege—that they were perfectly satisfied with the figures. Now that the tables are turned, do they like their own prescription?

THE Radicals are beginning to quarrel about the nomination of Grant for the Presidency. The out-spoken negro-equality leaders (the back-bone of the party,) protest against a milk-and-water nominee. Greely says that any backing-down on the negro question will result in a worse Republican defeat than Gen. Scott sustained in 1852, no matter *who* may lead the ticket. The path of Radicalism is becoming "rough!"—"*rough!*"

OHIO papers unite in declaring that a large negro vote was polled in the Western Reserve and other Radical strongholds. The Cincinnati *Enquirer* asserts that it would be easy to prove that enough illegal negro votes were thus cast to overcome the small apparent majority for the negro suffrage candidate for Governor.

THE Cincinnati *Gazette*, Radical, says: "A deadly political simoon seems to have swept over the State, turning our great Republican majority into dry bones." We had a touch of the same "simoon" in this State, and there is a terrible shaking among the dry bones of the Radical party.

So fanatical had the Radical leaders become that they had persuaded themselves the masses would follow wherever they led the way. In an hour which has proved fatal to them, they *submitted* the question of negro suffrage to the people of Ohio, and it has been strangled to death in the house of its supposed friends. Ohio has declared with an emphasis which it will be well for the Radical Congress to regard, that, within her State boundaries, the doctrine of "manhood suffrage" will not be tolerated.

MARCUS MORTON was elected Governor of Massachusetts, in 1839, by a majority of one in a vote of 192,066, after being a candidate for sixteen consecutive years.

THE LATE ELECTIONS.

PENNSYLVANIA.—Judge Sharswood, Democrat, is elected to the Supreme Bench, by a majority of 744—a Democratic gain, since last year, of 17,921! To the State Senate, 14 Democrats and 19 Radicals are elected—to the House, 46 Democrats and 54 Radicals. A handsome Democratic gain—which would have been greater but for the infamous Radical cheating in districting the State.

OHIO.—The vote on Governor is close. The Radical candidate is probably elected, but his majority may not be greater than the illegal negro vote cast for him. In the last Legislature the Radicals had 46 majority on joint ballot; now the Democrats have 10—3 in the Senate and 7 in the House; a Democratic gain of 56 in one year. This will elect a Democratic U. S. Senator (Thurman or Pendleton) in place of Ben. Wade. The negro-voting amendment is defeated by probably 50,000!—a gain of 90,000!

CONNECTICUT.—The Democrats have gained over 20 towns, thus giving them a majority in the Legislature—for the first time in thirteen years.

INDIANA.—Twenty-five counties show a Democratic gain of 9,152, and further changes are reported.

IOWA.—The Democrats have gained 8,183 in forty-two counties.

A glorious work for October! November will not dishonor it!

THEN AND NOW.

The Radicals are *trying* to console themselves by asseverating that the election of 1867 is like that of 1862. They profess to believe that they will recover the lost ground in 1868 as easily as they did in 1863. They forget that they were then restored to power by the bayonet, by crushing out Democratic newspapers, by incarcerating Democratic orators, by military tyranny and by fraudulent army votes. They have been defeated now by a great popular reaction which cannot and will not be checked. The great agencies which wrought the wonderful change this fall will be more actively and efficiently employed *from this day, until the election of a* sound, constitutional Union man for President seals the doom of the Radical Disunionists forever.

WHAT THE ELECTIONS MEAN.

The recent elections mean—

The restoration to power of that party (the Democratic) which, with but very short exceptions, and brief interims, governed the country so well, from 1800 to 1860.

The returning sense of the people, that the Democratic party is the only party which can constitutionally, and safely, govern a Democratic republic.

The general conviction that the Republican party is made up of such elements, as not only do not know how to govern, but will ruin the country in governing.

The elections declare against the whole Congressional reconstruction system of the Radicals. It is a verdict of "Guilty," on the whole Democratic indictment against the Radical leaders.

"UNIVERSAL SUFFRAGE."

Notwithstanding the defeat of the Radicals on the 8th instant, Forney, in his paper of Saturday last, declared that "Congress must apply a remedy, either by a new amendment of the Constitution, or by a law," "granting *universal suffrage* so far as all national questions are concerned."

If the Radicals make "universal (negro) suffrage" their platform in the next contest, Pennsylvania will cast the largest majority against it that any State ever gave upon any question since the Union was framed.

The attempt to strike the word "white" out of the Constitution of this State by a mere "law" of Congress, without reference to a vote of the people, would create such a popular revolt that the party advocating it would scarcely be able to elect a constable in any township in the Commonwealth. Let the Radicals try it.

YORK BOROUGH.—Amongst the most gratifying results in the late contest, was the majority for Sharswood in the Borough of York. The Democrats and Conservatives battled nobly, and rolled up the unprecedented majority of 358! This is the largest majority ever given in this Borough for a general State ticket, and shows that the march of conservative principles is onward in our midst, and that York Borough now gives one of the heaviest majorities of any large town in the State. We need only work and *organize properly, and next fall we can* give a Democratic and Conservative majority of 400 easily.—*York Gazette.*

FORNEY says: "A letter to the editor of the *Press*, from the Hon. Thaddeus Stevens, dated at Lancaster on the 10th, gives the gratifying intelligence that he is thinking clearly on the state of the country." With such an "eye-opener" as Thaddy got on Tuesday week, he ought to be enabled not only to think clearly upon but to see clearly into the state of the country.—*Patriot & Union.*

IMPEACHMENT PLAYED OUT.—A petition is going round for signatures asking the Fortieth Congress to impeach Andrew Johnson without unnecessary delay. We rather think that impeachment is knocked on the head. The election on Tuesday settled it. It is laid out *flat on the radical platform, and it makes* what the old crones call "a very purty corpse."—*N. Y. Herald.*

DEMOCRATIC NOMINATIONS IN MARYLAND.—The Democrats of Maryland have nominated a most admirable ticket. The men composing it are among the ablest and most distinguished in the State. The ticket stands as follows:

Governor—Col. Oden Bowie, of Prince George's county.

Attorney General—Hon. Isaac D. Jones, of Somerset.

Clerk of Court of Appeals—James Franklin, of Anne Arundel.

Superintendent of Labor and Agriculture—Dr. James C. Clarke, of Frederick.

WHAT will Congress do about negro suffrage, which anti-slavery Ohio has repudiated? Such leaders as Sumner and Wilson are pledged to compulsory negro suffrage by the action of Congress.—They dare not abandon it, and they dare not urge it. They dare not give it up, because of fanaticism at home. They dare not urge it, *for not merely does such* urgency involve certain defeat at the Presidential election, but a nearer peril still. For no one imagines after such a direct popular judgment as in Ohio, that Kentucky and Maryland and Pennsylvania and New Jersey and New York, would tolerate it. It would be resisted to any extent.

THE Radicals declared before the elections that the election of Judge Williams was necessary to sustain Congress. Judge Williams being defeated, Congress is condemned and must change its policy.

THE Springfield *Republican* tells the simple truth when it says the verdict of the people is against the Congressional plan of reconstruction.

WHAT THE LATE ELECTIONS HAVE DECIDED.

The New York *World* says: They have, of course, decided very little unless other elections, yet to be held this fall, shall be of like tenor. But of this it is not possible to doubt. The result in Pennsylvania and Ohio, following the results in Connecticut, California, and Maine, confirms the impression that a great reaction is in progress; and by the natural influence of elections upon each other, these successes will give to the reaction a new impetus. Men change sides with facility when multitudes go with them. It is as good as certain, therefore, that the Democratic party will do much better in the November, than they have done in the October elections. The returns will be all in before Congress meets next month, and there can be *little hazard in predicting* their consequences.

First, the elections knock the bottom out of the Radical reconstruction bucket, and spill all the contents. The miscarriage of the reconstruction scheme is certain, be the action of Congress what it may. To say nothing of the stunning and paralyzing effect of this great revulsion upon Congress, the reconstruction scheme will be defeated by the action—or, rather by the stubborn inaction—of the South. Even if Congress should be equally stubborn, it will not shake the determination of the South. The Southern people would sooner wait four or six *years* for the election of a new Senate, than return under the proffered conditions. A number of leading Southerners have indeed counselled submission; but the argument has been, "Let us accept these harsh conditions because they are inevitable;" or, "Let us take these lest we get worse." Thenceforward, white Southerners will scorn to use this kind of reasoning or to listen to it. They will fall back upon their rights, and decline all action under the Reconstruction laws. If new governments are organized, it will be the sole work of the negroes; and Congress, with its brief lease of power, will not dare to recognize negro governments pure and simple, especially since negro suffrage has been signally and indignantly rejected in those elections by the only Northern State that had an opportunity to pronounce upon it.

With what issue, then, will the Republican party go into the Presidential election? Never were all the plans of a party so shattered and upset. The Republicans have, in a thousand and a thousand ways, so committed themselves to their present scheme of reconstruction, that they cannot retreat from it without a total rout; but they are exposed to still greater disasters if they try to stand their ground. With what face can they stand by *this scheme of reconstruction*, after negro suffrage, its central principle, has been scornfully rejected in the North? How incensed must be the thrice-insulted South at any further attempts to force upon them an innovation which is confessed to be intolerable by the Northern States! If the Republicans persist, their ranks will be thinned by desertion.—Ruin stares at them on every side. If they lower their standard and profess moderate principles, Wendell Phillips and the intense Radicals will run a separate candidate for the undisguised purpose of punishing the party for deserting its principles.

"The Republican party made a fatal mistake in putting a wilfully dishonest interpretation on the elections of last year. They asked the people to endorse the pending Constitutional Amendment, and as soon as they got the *indorsement*, they treated it as authority to kick the very thing indorsed, that is, the Constitutional Amendment, aside, and substitute for it a plan totally different and infinitely more harsh and humiliating. To fling the judgment of the people thus back into their faces; to reject a plan the moment the people had signified their approval of it; and with enormous lying impudence pretend they had indorsed something they had never thought of, was as insulting a fraud as it would be to procure a man's signature to a note of fifty dollars, and then immediately efface the substance of the *note by a chemical process*, and write over the name another note for fifty thousand. Multitudes voted with the Republicans, last year, who did not really approve of the Constitutional Amendment, because they thought it the speediest way of settling a question which had been, even then, too long kept open.—They were impatient to have the country tranquilized, and supposed that a strong Northern vote indorsing the Amendment would cause its immediate ratification by the South. This proved a mistaken calculation. But if the South stood out against the Amendment, with all the Northern States voting in its favor, *what chance is there of their* succumbing to the reconstruction scheme, infinitely harsher and more objectionable, with the Northern States voting against it?

Another Republican project made abortive by these elections is the impeachment of President Johnson. The impeachment project has only one remaining aspect to recommend it. The Republicans are reduced to such desperate straits that an active use of the government patronage might be deemed by them important as a means of influencing the Presidential election; and Mr. Wade in the White House would wield the patronage for their advantage. But when it is considered that all the offices are at present filled by Republicans, it is not easy to see that it would signify much to depose the President for the sake of controlling the patronage. It is now certain that they would not be supported in this extreme measure by the public opinion of the country. The attempt would recoil upon its authors and greatly accelerate the reaction against the Republican party. They will no longer think of braving the public indignation, and the growing strength of a formidable opposition, by a reckless attempt to unseat a President because he refuses to follow them in innovations upon the established interpretation of the Constitution.

These elections, moreover, settle the question of negro suffrage as forming a *part of any system* of reconstruction to to be hereafter adopted. We do not assert that they settle it in the estimation of Republicans, but that they settle it in fact. Whatever the Radicals may continue to think, the general sense of fairness will revolt against thrusting upon the South a measure which is repudiated by the North. If it is repulsive and odious to the North, how much more so must it be to the South? Shall Gentiles force Jews to eat pork when they reject it from their own tables? It would be not merely glaring inconsistency, but wanton tyranny. Besides, in the North, negro suffrage is really of little consequence, the blacks being so few; while it would change the whole character of Southern politics.—It would be compelling the South to eat as food what is too nauseous for us to swallow as medicine. Justice and common sense rebuke such despotic insolence. Reconstruction on the negro suffrage basis may therefore be regarded as defunct.

IT will be observed from the returns of Salisbury township that Williams has 20 more votes than the average of the Radical county ticket, while Sharswood's vote is about the same as that of the Democratic County ticket. The list of voters prepared by the clerks and returned to the Prothonetary's Office has only 675 names upon it, while the 517 for Williams and 166 for Sharswood make up 683. We are at a loss how to explain this. The Judge and both Inspectors of election are Radicals, and we call on them for an explanation. Salisbury township has a very unenviable reputation for fairness in elections, and this affair will not improve it.—*Lancaster Intelligencer.*

Franklin Zouaves.—The Franklin Zouaves will meet at Arendtsville, to-morrow morning, at 9 o'clock, for parade.—The company is fully uniformed and equipped, and makes a splendid appearance.

Fair and Festival.—The ladies of East Berlin and vicinity intend holding a Fair and Festival, on Tuesday, Wednesday and Thursday evenings, Nov. 5th, 6th and 7th, 1867, for the benefit of the "Citizens' Brass Band" of that place.

Premium.—At the recent Cumberland county Agricultural Exhibition, the First Premium was awarded to the "Diamond Churn," exhibited by Wm. Wible, of this county.

Thanks.—Our good Marsh creek friend, Mr. Jacob Heretet, has our thanks for a basket of excellent turnips and several large sweet pumpkins.

Mr. A. W. Flemming, of this place, has also placed us under obligations for a pair of very large and fine radishes.

It is always pleasant to be remembered by one's friends.

Singular Growth.—A friend brought to our office, the other day, a sweet pumpkin to which the vine had grown fast and for some distance entirely incorporated itself with the flesh, ending in a leaf growing out of the pumpkin. The oldest inhabitant never saw the like before.

Accident.—On Wednesday last, Clara I., aged about 12 years, youngest daughter of Jacob Eppelman, Esq., of Butler township, met with a terrible accident. She was at a neighbor's, Mr. Jacob Y. Bushey's, where a sorghum mill was in operation. Taking up a few stalks of sorghum, she started them through the mill, *in a playful way, but her hand (the* right) was unfortunately drawn in among the cogs, and shockingly crushed, from the points of the fingers to the wrist. Medical aid was had as soon as possible. We hope for the early recovery of the little sufferer.

Church Dedication.—On Sunday last the new Lutheran church in Littlestown was dedicated with appropriate services—Rev. Dr. McCron, of Baltimore, Drs. Brown, Hay and Valentine, of this place, Revs. Alleman and Yingling of Hanover, being present, and assisting in the exercises, which are represented as having been very interesting. This church is one of the largest and handsomest in the county, the pewson the lower floor alone accommodating 600 persons. It has a steeple, basement, lecture room, all finished in good taste—the church room proper being handsomely frescoed, with stained windows. It cost about $12,000—$5,000 of which had been raised by subscription. About $3,500 additional were contributed on the day of consecration—leaving about $3,500 as a debt.

R. R. Survey.—Joseph S. Gitt, Esq., has favored us with a copy of his Report of the Surveys of the proposed Frederick and Pennsylvania Line Railroad, accompanied with maps, estimates of cost of construction, &c. The road runs from Frederick, Md., to Littlestown, Pa.,—one route by way of Bruceville and Ladiesburg, 30¼ miles, costing $614,392 90—the other by the Key School House and Double Pipe creek, 30 miles, costing $594,267. Mr. Gitt discuses at length the importance of the road, and its probable resources.

A Cheap History of the War.—The "Youth's History of the Civil War," published by Van Evrie, Horton & Co., New York, is a cheap and reliable work, and refreshing in these days of Radical literature. It is really time that something from the opposite stand-point be given the public—something to correct the one-sided histories of the last few years—and this the "Youth's History" does. The book is having a rapid sale, *not only among Democrats*, but also among fair-minded Republicans.

Agents are wanted to sell the work in this county. To active, energetic canvassers, a rare chance to make money is offered. For terms, &c., address J. S. Shearer, Gettysburg, Pa.

Counterfeit 7-30 Bonds.—Intense excitement was produced last week in financial circles by the discovery that a large number of $1,000 Counterfeit 7-30 Bonds were in circulation, so well executed as to pass through the hands of Jay Cooke & Co., Fish & Hatch, Vermilye & Co., and other well known banking houses.

Death.—The Rev. John Anderson, a well-known and much respected minister of the East Baltimore (M. E.) Conference, (formerly of the Gettysburg circuit,) was stricken with apoplexy at Snydertown, Pa., on the evening of the 15th ult., and after lingering until the Tuesday following, was gathered to his fathers. Mr. Anderson was stationed at Sunbury, and on the day when prostrated had preached three times. He was aged 63 years.

Fire.—On Tuesday morning of last week, about 11 o'clock, the dwelling house of Mr. Nicholas Fleagle, adjoining the first toll-gate house on the Carlisle turnpike; about two miles from town, was totally destroyed by fire, together with all its contents, including $150 in money. The cause of the fire is not exactly known, but is supposed to have resulted from a flying spark from a stove in the kitchen. When discovered, it had made such headway as to render all efforts to save the building futile. There was *no insurance upon the building or* its contents, and the loss, which is quite heavy, falls severely upon Mr. Fleagle, who is a hard working and industrious man.—*Hanover Spectator.*

Ten Horses Burnt.—The barn of David Keedy, near Keedysville, Md., was destroyed by fire on Saturday night, and ten horses were consumed with it. Incendiarism.

Railroad Extension.—The Hagerstown *Mail* says that a corps of engineers have commenced an experimental survey of the route between Hagerstown and Williamsport, for an extension of the Cumberland Valley Railroad to the latter place.

Hanover Sales.—George N. Forney has sold his steam tannery to Cornelius Young, at $6,000.

Jesse Kohler has disposed of his tavern stand, on Carlisle street, to Daniel Geiselman, at $5,000.

Autumn.—The shortening days remind us that another autumn is upon us. Verily, time waits for nobody.

Abel T. Wright, Executor of the estate of John McKnight, deceased, on the 7th inst., sold the following real estate of said deceased, in Menallen township, viz—the mansion house and lot, to Wm. W. Blocher, for $1,164; lot containing 2 acres and 159 perches, $159 per acre, to Wm. Blocher; 2 acres and 89 perches, for $126 per acre, to Enoch Rouanzahn; 2 acres and 47 perches, for $101 per acre, to G. W. Harman; 3 acres and 41 perches, for $135 per acre, to W. N. McKimm; building lot for $55, to Wm. Yeatts, Jr.; 10 acres of timber land, for $11 50 per acre, to A. T. Wright. The entire sale netted $3,900 06.

The farm belonging to Jacob Lerew, deceased, in Latimore township, has been sold by the Executor, to Isaac D. Worley, Esq., for $3,635.

Benjamin Shelly has sold his farm of 128 acres, in Huntington township, to Samuel Stouch, for $50 per acre, and Samuel Stouch has sold one-half of York Springs property to Abraham Fisher, for $5,500. Benjamin Shelly has bought the farm of E. F. Lishey, for $3,500.

Jacob Hartman has sold 35 acres, in Huntington township, to Benjamin Weaver.

Harvey Larew sold for $250 a brick house and lot in Petersburg, to John W. Gardner, who has also bought the house and lots of Mrs. Elizabeth Gardner for $850.

The farm of John R. Johnson, advertised at public sale in this paper, has been sold privately.

The Morning Glory.—In these latter days, when the necessaries of life are all at a high figure, economy in the household is absolutely essential. Wood and coal command high figures, and a fuel saving Stove is a desideratum in every family. In no department of American manufactures has there been more marked improvement within the last few years than in that of Stoves—it being the aim of manutacturers to get up a Stove to consume the least possible amount of fuel in producing a given amount of heat. This end seems to have been at last attained in the famous "Morning Glory," which is producing so great a sensation in the cities and throughout the country—superseding everything in its line and defying competition. This wonderful Parlor and Office Stove is so constructed that the cheapest quality of coal (limeburner's) can be used with perfect success. Sufficient coal to last twenty-four hours is supplied in the morning, thus avoiding the trouble and dirt consequent upon the hourly attention required for ordinary coal-burners. It burns continuously, so that one kindling of the fire is all that is necessary for six months. The ventilation through the stove permits the temperature of the room to be raised to a high degree without rendering it close or stifling. There is no dust, no escape of gas, and an actual saving of coal, which in two seasons will pay for the stove. The stove is moreover a perfect gem of neatness, beauty, economy and comfort. It consumes the *small coal*, which is a great saving in price, and for parlor stove, or office use, has no equal in the world. It is a perpetual burner, only one fire being required to be made during the season. It is a perfect ventilator of the apartment. There can be no escape of gas from it. There can be no clinker or slag to obstruct. The fire will remain for days without attention. The illumination is equal to an open grate. It is a powerful heater, and yet perfectly adapted to mild weather. The demand for this stove last year was so great that the manufacturers could not supply them rapidly enough. A number have been sold already in Gettysburg, and there seems to be but one opinion on the part of all who have tested it—that in every respect it is the most economical and convenient stove in the market.

On account of the unparalleled demand for the "Morning Glory" Stove, an external imitation of it has been put in market, but *essentially different* construction. Be sure that you get the *genuine.*

Col. C. H. Buehler is the exclusive and only authorized Agent for the sale of the Morning Glory in Gettysburg, and has on hand all sizes, which can be seen at his ware-room on Carlisle street, together with a large assortment of various kinds of Parlor, Office and Cooking Stoves. 1t

Soldiers' Monument.—The surviving members of the 1st Minnesota, which made a gallant fight at Gettysburg, have prepared a handsome tribute to their fallen comrades, to face the Minnesota lot in the National Cemetery at this place. Mr. Cannon is preparing the Monument, which is nearly ready to be put up. It consists of a large marble Vase, set on a marble die, which rests on a marble pedestal, and this again on a larger granite base—the whole being about six feet high. The face of the pedestal has the following inscription:

"The surviving members First Regiment Minnesota Infantry, to the memory of their late associates, who 'died on the field of honor,' at Gettysburg, July, 1863."

One the reverse—

"First Minnesota Volunteers."

On one side is the inscription—

"The dead shall not have died in vain."

On the other—

"All time is the millennium of their glory."

The work is in Mr. Cannon's best style, and the Monument will be an additional attraction to the Cemetery.—*Star.*

—Similarly prominent marks to all the State sections would not only add variety to the Cemetery, but give it a degree of picturesqueness which its elevated and beautiful location seems to demand. We hope the commendable example of the First Minnesota will be generally imitated.

AN editor says the only reason why his house was not blown over in a late gale, was because there was a heavy mortgage upon it.

Escape of a Prisoner.—On last Thursday night, Joseph Worthington, alias Joseph Wise, made his escape from the jail in this place. In March last he was convicted of larceny in Washington county, Md., and sentenced to six months imprisonment in the Maryland penitentiary, located in Baltimore. His term of imprisonment expired on the 21st of last month, when officer Houser, of this place, presented a requisition from Governor Geary, and received him from the warden of the penitentiary. An indictment is pending in the Court of Oyer and Terminer, of this county, charging him with burglariously entering the German Reformed church in this place, and stealing a lot of carpet therefrom, in the month of January last.

It seems that the prisoner during the day went up to the room of the hostler at the jail, procured some old clothing there, and constructed a pad dressed in coat, pantaloons and shoes, which he laid upon the bed in his cell. He then concealed himself in the yard until night. When the Sheriff went the rounds of the jail in the evening, he opened the door of Worthington's cell and saw his stuffed representative lying on the bed. Supposing it to be the prisoner, he locked the cell, under the impression that all was right. When night came, the prisoner issued from his place of concealment, and with a steeple taken from the sill of the cellar door, made holes in the jail wall, into which he drove pieces of wood, and thus scaled the wall. By means of a piece of hose found in the jail yard, which he fastened to the top of the wall, he made the descent in safety. By this cunning device he made good his escape, leaving no clue by which the course he has taken can be ascertained.—*Chambersburg Spirit.*

To Business Men.—The newspaper is the medium which the business man should employ if he wishes to make known to the world his avocation. He may open his stock and display ever so fine a lot of goods, and yet every endeavor he may make will not bring him the trade to be secured by a proper system of advertising. The "GETTYSBURG COMPILER," having a very large circulation, and being read weekly by not less than 10,000 persons, presents an invaluable and necessary advertising medium to every business man in the county.

Leg Broken.—Miss Diehl, granddaughter of Jacob Melhorn, Esq., (of Mountpleasant township,) and living with him, broke her leg, one day last week, by being run against and thrown down by a large and heavy dog.

Cattle Killed.—Four valuable cattle were run over and killed on the Railroad, near New Oxford, one day last week. They belonged to Mr. James Gitt. One, a blooded bull, was worth at least $100.

Shaeffer's new Gallery at Hanover, is the place to have your Pictures taken—none better, none cheaper. Money refunded if not satisfactory.

Lieut. F. M. Gilliland, of Paducah, Kentucky, who was confined for 11 months in Libby Prison, and was there attacked by Dyspepsia in its worst form, and so debilitated that he could not walk one square, states that he has been entirely cured by Coe's Dyspepsia Cure. Let the suffering try it.

Found at last, a remedy that not only relieves, but cures that enemy of mankind, Consumption, as well as the numerous satelites which revolve around it in the shape of Coughs, Colds, Bronchitis, Sore Throat, Influenza, &c. The remedy we allude to is Dr. Fowle & Son, Boston.

The Port Grape in New Jersey.—The following cannot fail to satisfy any sceptical persons about Speer's wine being purely a grape juice wine:

Passaic, Oct. 23d, 1865.

This is to certify that I have been a resident of Passaic for the past twelve years, during which time I have known Mr. Alfred Speer, and been thoroughly posted in the manufacture by him of his celebrated wines, and can testify to the fact derived from a personal knowledge that his excellent Port Grape Wine is made entirely from the Oporto Grape, which he extensively cultivates in sight of my residence. The Port Grape vine is a variety of his own raising, cultivated exclusively by himself, and is a superior grape.

C. M. K. PAULISON,
U. S. Deputy Collector Int. Rev.

Our druggists have some of this wine, direct from Mr. Speer.

THE negroes in Buffalo decided on the opening of the fall term of the public schools, to abandon their own free schools and put their children in with the whites. The teachers told them they were not allowed to accept them, but it was of no avail. The Superintendent did the same thing, but still they persisted in sending their children to the white schools. The Superintendent was finally compelled to eject the colored children from the schools. At this the parents and a number of seedy Radicals became exceeding wroth, and they now threaten to prosecute that functionary under the Civil Rights law.

THE Democrats of Massachusets have entered upon the campaign in earnest. The great reaction now going on through out the North has created a *furore* even throughout that Commonwealth.

THE jury lists for the parish of Orleans were drawn on the 8th, under the Sheridan rule. The list of 200 is comprised of twenty (20) whites and one hundred and eighty (180) negroes! That's Radical "reconstruction" for you.

THE UNION PACIFIC RAILROAD CO.

THEIR FIRST MORTGAGE BONDS AS AN INVESTMENT.

THE rapid progress of the Union Pacific Railroad, now building west from Omaha, Nebraska, and forming, with its western connections, an unbroken line across the continent, attracts attention to the value of the First Mortgage Bonds which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?" Next, "Are they a profitable investment?" To reply in brief:

1st. The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. One fourth of the work is already done, and the track continues to be laid at the rate of two miles a day.

2d. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates.

3d. 425 miles of this road are finished, and fully equipped with depots, locomotives, cars, &c., and two trains are daily running each way. The materials for the remaining 82 miles to the eastern base of the Rocky Mountains are on hand, and it is under contract to be done in September.

4th. The net earnings of the sections already finished are *several times greater* than the gold interest upon the First Mortgage Bonds upon such sections, and if not another mile of the road were built, the part already completed would not only pay interest and expenses, but be profitable to the Company.

5th. The Union Pacific Railroad bonds can be issued only as the road progresses, and therefore can never be in the market unless they represent a *bona fide* property.

6th. Their amount is strictly limited by law to a sum equal to what is guaranteed by the U. S. Government, and for which it takes a *second* lien as its security. This amount upon the first 517 miles west from Omaha is only $16,000 per mile.

7th. The fact that the U. S. Government considers a second lien upon the road a good investment, and that some of the shrewdest railroad builders of the country have already paid in five million dollars upon the stock (which is to them a third lien,) may well inspire confidence in a first lien.

8th. Although it is not claimed that there can be any better securities than Governments, there are parties who consider a first mortgage upon such a property as this the very best security in the world, and who sell their Governments to reinvest in these bonds—thus securing a greater interest.

9th. As the Union Pacific Railroad bonds are offered for the present at 90 cents on the dollar and accrued interest, they are the cheapest security in the market, being more than 15 per cent. less than U. S. Stocks.

10th. At the current rate of premium on gold, they pay

Over Nine per Cent. Interest.

AGRICULTURAL REPORT FOR OCTOBER.

The report of the Department of Agriculture is just issued by the Commissioner. It shows that the increase of the wheat crop, over last year's, is large, but not as large as was anticipated. The increase is greater in Ohio than in any other State, being 130 per cent. The only noticeable thing in the meteorological tables is, the surprising difference in the quantity of rain in the East and the West. Our own State embraces almost the extremes. The depth of rain falling in Philadelphia, in August, was 16.84 inches, while in Canonsburg it was only 1 inch and 84-hundredths. East of the mountains, August was a month of rain, appreciable quantities having fallen on fifteen days of the month. The average of August for fifteen years at Philadelphia has been only 4 inches and 52-hundredths. The report is rather unfavorable on the score of fruit, particularly Apples. Hay is a very large crop. Wool is represented as from five to ten per cent. less than last year, owing to the severity of the last winter and the consequent destruction of large numbers of sheep.

EXPERIMENTS IN FEEDING CATTLE.

In England everything connected with agriculture is experimented in, without regard to expense, in every possible way. In no country has the cultivation of the soil been carried to a higher state of perfection, or in which it is more productive, and as an occupation, more lucrative. We always read with pleasure the results of farming, and especially the many experiments which are tried there, with a view to discover the most successful and profitable way of conducting the various operations on the farm.

The following experiments in feeding cattle, with *cooked* and with *fermented* food, was lately tried upon one of the largest estates. It will be seen that this experiment suggests the importance of great care and caution in feeding, before a decided opinion is adopted on so nice and delicate a subject as the nutrition of animals, the health and constitution of which are so various.

Four heifers were selected, as equal in all respects as possible; six pigs were also selected, from the same family; each lot was divided by the selection, alternately, of an animal. All were weighed, and at the end of each week during the experiment each animal was weighed.

In the first week of the experiment the fermented food consumed was much less than the other, and the increase of live weight was considerably more; the heifers also seemed to have made rapid advance. The second week, however, changed the scene entirely. Those fed on cooked food were making steady progress, whilst those fed on fermented food had produced scarcely any increase from the preceding week. It was then observed that the bowels of the lot using fermented food had been confined, and had become free in the second. The apparent success in the first week was the result of indigestion and accumulations of undigested matter in the intestines.—The experiment continued for twelve weeks—those on cooked food thriving and increasing, and the others not. On slaughtering them, it was found that the intestines of the three fed on fermented food were full of worms—thus accounting for their not advancing. There was a difference in the return of the three lots in favor of those fed on cooked food of £1 7 3.

Knowing as we do that there is a considerable difference of opinion among farmers upon this question, the above is submitted to their attention with the hope that they will give us their own views on the subject, which is one, they will all admit, worthy of consideration.

SELECTING SEED CORN.

Last spring two years I instituted a series of experiments with seed-corn, which with their results, may be interesting to your readers.

In the fall, when husking, I selected for seed ten ears from stalks with two ears, and the same number from stalks with but one ear.

Last spring a year I planted five rows with seed taken from stalks with two ears, the points and butts being shelled off; five rows with seed taken from ears of the same quality as the former, and differing from them in being taken from stalks on which they were the only ears.

I also took a portion of seed ears, and after shelling off all the imperfect grains at the points and butts, I shelled three inches from the points and kept it by itself, and used it for the next five rows; and the remainder of the seed I used for another five rows. Thus I had twenty rows from four different classes of seed, five of each kind, which I will number thus: No. 1, from ears from stalks containing two ears, the most perfect being used; No. 2, from seed from stalks of only one ear, the imperfect grains being shelled off; No. 3, from the first three inches of perfect corn, measuring from the point of the ear; No. 4, from seed taken from the base of the ear, or from the base to the middle.

After husking these twenty rows, I noted the following results:

In No. 2 there were two more stalks bearing two ears than in No. 1; hence I conclude that seed taken from stalks bearing two ears is no more likely to produce stalks with two ears than where the seed is taken from stalks bearing but one ear.

No. 4 was ripe some two and a half weeks before No. 3, and was better eared and filled out to the end of the cob, which was not the case with No. 3. From this I am led to conclude that seed from the base and middle will produce ears that will ripen from two to three weeks sooner than if taken from the point.

BRINKERHOFF'S

Corn Sheller, Separator and Cleaner.

THE undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.* The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the New York *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates clean, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

ESTEY'S CELEBRATED

COTTAGE, HARMONIC AND BOUDOIR *ORGANS AND MELODEONS.*

These Instruments stand unrivalled by any thing found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (as acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. The vibratory changes Tremolo, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, which is pronounced by the most powerful Organ made, being nearly equal to a Pipe Organ of three times the cost.

THE NEW WORK ON SINGING.

BASSINI'S

TWENTY MELODIC EXERCISES,

IN FORM OF

SOLFEGGIOS FOR SOPRANO OR MEZZO SOPRANO VOICES,

INTENDED AS

Studies to acquire the Art of Singing.

"THESE exercises were composed to be used simultaneously with his system, 'THE ART OF SINGING,' or with any *other method* for the cultivation of the voice, and will take the place of CONCONE'S SOLFEGGIOS; being more melodious and better adapted for teaching.

"Some of these exercises are specially beautiful as well as useful, a mingling of the *dulce et utile,* which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intelligence and appreciation, and at the same time form the taste of the pupil. They must be studied carefully with reference to the innumerable marks of expression and forms of ornamentation. Upon the minute accuracy with which these are accomplished depends the acute sterling advancement of the pupil; any evasion or slurring in these respects is time and effort wasted, while, on the other hand, a close and patient investigation, and a minutely faithful execution of them, will give unexpected power and faculty, and open to the student the means and resources by which great artists produce their most brilliant and profound effects."—*Watson's Art Journal.*
